

REVEL  
CUSTOM WINE CELLARS

*A breakthrough in  
wine cellar cabinetry*

# A COLLECTOR'S DREAM

Form and function unite into a breathtaking display of expert craftsmanship, innovative design and striking beauty. Revel is reinventing wine storage with intuitive features designed exclusively with the needs of discerning wine collectors in mind.

## WINE WHEEL

The first of its kind, Revel's patented Wine Wheel features a rotating design to optimize cellar corner space. With one turn of the wheel, you can make a wine choice without disturbing a single bottle.

## LABEL ORIENTATION

From the center of a Revel wine cellar, you can identify 70% of your collection at a glance. Revel's configuration orients the bottle on its side, with the entire bottle label facing out. This significantly improves your ability to see and access your collection over traditional "cork out" methods.

## DOWEL SYSTEM

Our proprietary dowel system cradles your wine, creating more efficient airflow and even temperature without stagnant spaces for moisture to gather. It also enables you to store multiple bottle sizes side-by-side, from 350 mL bottles to magnums.

### 15-DEGREE ANGLE DRAWER

Coined the “brag shelf”, this 15-degree angled drawer displays the treasured vintages of your collection and also ensures the cork remains moist as the wine ages, preserving its integrity.

### DOUBLE-DEEP STORAGE

Revel wine cabinetry is available in standard or double-depth formats. Deep formats maximize storage capacity without sacrificing accessibility. Store bottles in a single layer, neck-to-neck or by label orientation.

### CASE STORAGE

For the first time you will be able to organize all your wine in one place, regardless of whether you purchased it by the case or the bottle. Revel’s sturdy and smooth-sliding drawer construction makes accessing every case in your cellar a breeze.

### SOLID HONDURAN MAHOGANY

Revel cellar designs are precision-constructed from 100% Honduran mahogany and backed by the industry’s best warranty. Revel cellars are delivered in a natural, untreated finish—no paints, stains, sealants or other finishes known to taint your wine. The natural finish ages beautifully, taking on a classic patina over time.

## *Finally, a cellar worthy of your passion*

Experience the revolutionary way to showcase, access and manage your wine.
